Keeping Chrome up to date allows you to take advantage of the latest Chrome features and security updates to keep you productive, secure, and mobile. Powerful tools like Google Lens and Google Translate help you do even more. And theyre built right into Chrome. With Google Lens in Chrome, you can search and ask questions about anything you see whether its a photo you take, an item in an image or text in a video, all without having to open a new tab. Check out these tips that make Google Search better than ever. Quickly start your chat with Gemini right in the address bar and get the result on gemini.google.com. You can also search your bookmarks, history, and open tabs to find what youre looking for in record time. Step up to the mic and use your voice to search. Ask to see pictures, get answers to your pressing questions, say words or phrases to be translated, and get definitions for words. Learn about Google Voice Search Save time and get answers faster than ever with results right in the address bar. Get the current weather, define words, and translate words and phrases, all without having to leave the page youre on. The address bar acts as a handy calculator you can use without leaving the page youre on. Easily convert units of measurement, get foreign currency exchange rates, and solve simple mathematical equations. Sign in with your Google account to access Google Drive. With Chrome, you can quickly access your files right from the search bar and work on them while offline, too. Sign in with your Google Account Read entire web sites in your preferred language and even switch between the original and translated versions. Learn more about Translate Translate a sign in a photo or text on a menu without having to re-type the words yourself. Get instant results when you ask to translate words or short phrases by typing [Word] in [Language]. Translate in near real-time while playing audio in a different language, like in a video or podcast.
